Erin Bird  
Fair Trade Calgary

Dear Ms. Bird,

The Marco Satyro Learning Forum supports the campaign to have Calgary recognized as a Fair Trade Town and supports raising awareness about the benefits and opportunities of fair trade for our community and for producers around the world.

The Marco Satyro Learning Forum is a small group of like-minded individuals who gather to discuss technologies and learnings within the engineering world. We were glad to incorporate Fair Trade recognized breakfast and lunch as part of our more formal event in order to spread the ideals of having the choice of fair trade products in all work and community spaces.

We are encouraged to see local efforts like Fair Trade Calgary at developing beneficial and positive impacts to our local and global communities. We understand the effort and struggles of local groups gaining support and recognition for their work.

We wish you the best and are happy to endorse your campaign and endeavors in hosting the next National Fair Trade Conference in 2020.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized loop at the top and several horizontal strokes below it.
