"There is a growing fair trade movement in Calgary, and people are asking for more sustainable and ethical options to be available. This event is the perfect opportunity to celebrate the direction we are going in towards a more socially responsible Calgary." Erin Bird, Spokesperson for Fair Trade Calgary.

World Fair Trade Day, a worldwide event the second Saturday in May, celebrates fair trade as a tangible contribution to the fight against poverty and exploitation. Fairtrade products are audited along the entire supply chain to ensure a fair price is paid to the producer, that working conditions are ethical and do not support child or slave labour, that environmental sustainable practices are used (no GMO) and that a fair trade premium is given to the producers so they can democratically determine how best to reinvest this money back into the community and business.

Fair Trade Calgary is a group under the not-for-profit organization, Engineers Without Borders (EWB) Calgary, that are working to increase awareness and encourage availability of fair trade products in Calgary. Our mission in 2017 is to help Calgary achieve Fair Trade Town Status. Fair Trade Town is a designation that acknowledges the leadership and commitment of Canadian Municipalities to fair trade.
